Demo Client · DEMO-0005
11 November 2026 · v1.0

Handover note

> Demonstration package built from synthetic data.

Client: Demo Client · **Engagement:** DEMO-0005 · **Final run:** `mv_20261111T175929Z_ec2c5b`

1. Open this first

`00_START_HERE` opens with one click in any browser and holds everything below. Nothing has to be installed.

If you are	Start with
The committee chair	One-page summary
The model-risk committee	Presentation, with speaker notes
The specialist	Report
The analyst who checks numbers	Workbook (Control panel first)
Whoever wants to explore	Dashboard
The model owner	Findings log
The auditor	Methodology and replication pack

2. What was handed over

#	Item	File
1	Final report	`01_DemoClient_ModelValidation_Report_v1.0_20261111.pdf`
2	One-page summary (tear sheet)	`02_DemoClient_ModelValidation_Summary_v1.0_20261111.pdf`
3	Results presentation	`03_DemoClient_ModelValidation_Presentation_v1.0_20261111.pptx`
4	Results workbook (all numbers)	`04_DemoClient_ModelValidation_ResultsWorkbook_v1.0_20261111.xlsx`
5	Model documentation (methodology)	`05_DemoClient_ModelValidation_Methodology_v1.0_20261111.pdf`
6	Handover note	`06_DemoClient_ModelValidation_HandoverNote_v1.0_20261111.pdf`
7	Findings log and remediation tracker (for the model owner)	`07_DemoClient_ModelValidation_FindingsLog_v1.0_20261111.xlsx`
8	Replication pack (re-run the core checks on your own data)	`08_DemoClient_ModelValidation_ReplicationPack_v1.0_20261111.zip`
9	Interactive dashboard: one HTML file, opens in any browser	`09_DemoClient_ModelValidation_Dashboard_v1.0_20261111.html`
10	Data-quality reports	`Data_Quality/ (open the .html files)`

#	Item	File
11	BI exports for Power BI / Looker Studio	`BI_Exports/ (CSV, long format)`

3. Who does what

When	What	Who
Within 30 days	Answer every high-severity finding in the findings log	Model owner
Within 30 days	Remove the post-decision input and refit	Model owner
Within 90 days	Close the medium findings and complete the documentation	Model owner
After the refit	Revalidate the changed parts and update the opinion	Validator
Each quarter	Review stability and calibration against the agreed limits	Model-risk function

4. How the files work together

- The **model owner** answers each finding in the findings log. In the dashboard, choose *Load the updated file* and pick it to see what is still open; the file stays on your computer.
- The **replication pack** lets anyone rerun the key numbers on their own machine.
- The **presentation** has speaker notes on every slide, and its charts can be edited in PowerPoint.
- The **workbook** recalculates: choose a segment in the yellow cell of the Control panel.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

5. What we need for the next run

The corrected specification and code, the data used to refit it, the management responses in the findings log, and any change in how the model is used.

6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).
